## ECONOMY IRIS PRICE LIST FOR 1943

We can best cooperate in the conservation of paper and labor by sending you this year our 1942 List with the following revisions:

All 5c varieties are raised to 8c ea. or 3 of one sort for 20c.

All 10c var. are raised to 13c ea. or 3 of one sort for 33c.

**Please note.** Altho these cheaper varieties are desirable, they do not compare favorably with the newer and higher priced sorts. But they offer a range of color and are desirable for mass planting by those to whom the price is an important consideration. **Warning.** If you need these low priced Iris we suggest that you buy them this year. The present tendencies toward cost and availability of labor, cost of living, taxation, etc. is making it most difficult for us to grow and sell profitably those Iris in the low price brackets. Therefore, we are likely at any time to discard them and to grow and list only those worth 25c each or over.

**Cameliard.** Sold out.

**Cucamonga.** Lowered to 25c ea.

**Golden Cataract.** 50c ea. 3 for \$1.00.

**Happy days.** Lowered to 40c.

**Lentz Schnee.** Lowered to 15c.

**Mrs. H. Darwin.** Sold out.

## ADDITION

**China Maid.** A most lovely addition to the list of pink iris. A blend of pink, golden bronze and rosy lilac. Tall, graceful stems with large, beautifully formed and well placed flowers. A "must have." 75c each.

**Collection Offers,** amended as follows:  
**Collection No. 4.** Price changed to \$1.25. This offer is for 20 varieties, not 37 as some interpret.

**Dwarf Iris** offer cancelled.

**Assorted Iris** offer amended. Price 75 for \$1.25, f.o.b. by express. Per 1000, \$12.50. If wanted by mail, post paid the price is \$2.50 for 75 rhizomes.

**Digging Time Specials.** All 1942 offers are cancelled. But we offer the following and you can be sure they will cost you more this fall.

**Tuberoses.** 50 clumps for \$1.00. 100 for \$1.50. Small bulbs post paid or we will send large ones by express at your expense.

**Clivia miniata.** Med. size, \$1.00. Large, \$1.75.

**Clivia miniata hybrids,** med. \$2.00. Large, \$2.75.

**Ranunculus,** size No. 3, 100 for \$1.00 no quantity discount.

These prices on bulbs (but not in Iris) will be cancelled when our Fall Catalog is issued in August.

## ECONOMY IRIS PRICE LIST

If you do not comply with these terms regarding Sales Tax, postage on orders under \$1.00, or remittance made in postage stamps, the amount will be deducted from your order.

If you want a letter of explanation or advice send a self addressed post card.

### BEARDED IRIS

**Definition.** Plicatas have a ground color of white or light tint with deeper colors flushing, bordering or drawn on in dots or lines. Blends have several colors delicately blended. Bicolors have standards, (S), or upright petals in a lighter tone than that of the falls, (F.) or drooping petals. In the Variegates, the S. are yellow toned and the F. in a great variety of reds and maroons.

**Culture.** Plant rhizomes only one inch deep. keep moist but do not water heavily until they begin to grow. Induce vigorous growth especially the first season by clean culture and abundance of water. Most Iris prefer full sun. They succeed in any good soil unless too acid. Heavier soils are better than very sandy. Use no fertilizers and manure is often fatal. Light applications of wood ashes or lime are good and are necessary in soils on the acid side. Plant any time of year, but the best time is soon after flowering. Iris planted early will bloom the following spring.

When your Iris do not bloom freely blame your culture. Frequent causes are: When too thick or crowded only the outside of a clump can bloom. Divide them. It may be you force growth too late in the fall. In late fall let them dry off and bake until foliage withers. They cannot be too hot or too dry at that time but to do that they should have made a previous abundant growth sufficient to have matured the blossom end of the rhizomes.

**Time of delivery.** Bearded Iris are sent any time of the year. Beardless Iris, (Louisiana, Spurias etc.) are delivered in late fall when dormant. Order now (and remit price) or well in advance that we may know how many to dig. We cannot accept orders to "let me know when ready and I will remit."

### IRIS COLLECTIONS

**No. 1.** Ten varieties of Iris including Golden Cataract, Eleanor Roosevelt, Eleanor Brooks, Cecil Houdyshel, San Francisco, Claridad, Mme Cheri, Purissima, Sierra blue and any 25c variety. Price \$2.00.

**No. 2.** Five Everblooming Iris, Golden Cataract, Everblooming Plicata, Eleanor Roosevelt, Arcadia Blue and Blue Beard. All are fall or off-season bloomers and some of them bloom several times a year. Price \$1.60.

**No. 3.** Ten superior varieties including, Ce-

cil Houdyshel, Eleanor Brooks, Bobby Houdyshel, Magnifica, Mother of Pearl, Purissima, Coronation and three more of our own selection for \$1.00.

**No. 4.** Twenty good var. Iris, including Magnifica, Mother of Pearl, Isolene, and 17 more of our selection for \$1.00.

**No. 5.** Consists of collections 1, 2, 3, and 4, but with no duplicates. Where duplicates would occur if ordered singly we will substitute other varieties of equal or greater merit and value. In addition we will add Moneta and Rosultra, making 47 varieties, all good ones and many very outstanding for \$5.50. This will give you a fine Iris garden representative of modern Iris at an average cost under 12c each. Some will bloom this fall and all next spring if ordered early and well cared for.

**Dwarf Iris.** We have a fine lot of seedling Iris bred for rare pastel colors. Many are pink or red toned, many plicatas. Sizes are dwarf to intermediate and most useful in rock gardens or borders. Their exquisite tones will delight you. These plants are assorted and unnamed, you can give them a name. No common ones. Price, 25 for \$1.00. 100 for \$3.00.

**Assorted Iris.** We have a lot of Iris without labels and certain surplus. These are cheaper and commoner sorts and there may be only a few sorts in each lot. Recommended only for mass planting, where quantity rather than quality is desired. Price 75 for \$1.00. Shipped only by express at your expense. We cannot undertake to let you know the costs of P.P. or Express but will ship C.O.D. for postage, if you remit the \$1.00.

In the following list we have included some of the best of moderately priced Iris. We do not claim these are the best. But many of those very recently introduced and now selling for \$5 to \$50 per root are little if any better than those a little older that can be purchased for 50c to \$1.00.

Nor do we claim that you can plant the 5c varieties and obtain a collection representative of modern Iris. We recommend them as good Iris that are useful in a large planting where one must limit the expense. For greatest satisfaction plant a few at least of the higher priced Iris.

 Nada and Wattii may be moved any time.

## DIGGING TIME SPECIAL PRICES

Our season of fewest sales is from May 1st to Aug. 15. It coincides with the season of greatest expense, the summer growing and bulb digging time. No other explanation is necessary why we offer very great inducements for summer buying or certain items.

### Plant The Following Bulbs At Once

#### Sensational Bargain On Tuberoses

Tuberoses do exceptionally well in warm to hot climates and succeed also in the north if dug and stored over winter. Very frag-

rant and lovely for cutting. Planted at once most of them should flower first year, but even if planted late you can save the bulbs for second year blooming. Plant 3" deep, 2" apart in full sun. Water freely for best result. Below wholesale. 100 clumps for \$1.00 by express, not prepaid. By mail, postpaid, 60 for \$1.00. By mail, we have to adjust size of bulbs to reduce postage on distant orders so express offer is better. Order at once, but bulbs will grow if planted in mid-summer.

**Day Lilies.** We are transplanting a field and will send you 8 plants for \$1.00. These are mostly the Double Day Lily with a few Orange and Yellow Day Lilies, hybrids, etc. Mixed. No labels.

**Crinum Powellii** alba and **C. Longifolia**, small bulbs, 25c ea. **C. Ellen Bousanquet** and **C. Campanulatum**, small, 40c ea.

**Hippeastrum equestre.** They don't bloom for us but we are assured that they bloom in pots or in sandy, coarse soil in far south. We have to move a large bed. 15c ea. \$1.00 per doz.

**Oxalis, "Shamrock".** Summer grower. Plants soon, but will probably grow if planted as late as July 15. 15c per doz. \$1.00 per 100. **Zephyranthes candida.** Pure white. Will flower this summer if planted soon. Makes lovely snow white carpets. 50 for \$1.00.

**Z. rosea.** True species and not **Z. grandiflora**. Smallest Zephyranthes, true pink, dainty flowers. 10c ea. 65c doz.

**Nerine filifolia.** 3 for 25c. 75c per doz.

**Marica gracilis.** Half shade. Tender pot plant in north. Hardy south. 25c ea.

**Billbergia nutans.** 35c ea.

**B. distachia** hybrids, 40c to 75c ea.

**Clivias.** We sold many Clivias in the spring but did not quite clean up one side of our Clivia house. To finish this job we will offer at the following low prices that are good only until Aug. 15, 1942.

If moved now the plants will have ample time to become established for blooming in 1943. Only medium to large sizes are likely to flower next year.

**C. miniata.** Small, 50c. Med. \$1.00. Large \$1.75.

**C. miniata** hybrids. Small, 75c. Med. \$1.50.

Large, \$2.00. Jumbo. \$2.50.

**Tuberous Begonias.** We still have a few of the Camellia flowered double from California's best grower. They were graded 1"-1 1/4" This is a good time to plant as they start easier when warm. Two for 25c. 15 bulbs, all different for \$1.50. Order these at once as we will pot all left on hand by June 15.

**Plant the following bulbs in the fall.** See culture directions in Fall Catalog that will be sent August 15, or refer to last fall's catalog. Bulbs will be sent as soon as dug and cured.

**Ranunculus.** We have a large stock of the 1941 crop in No. 3 size, assorted colors. Ranunculus are an exception to the rule that fresh bulbs are best. One year old Ranunculus start more quickly, grow faster and flower earlier than bulbs dug only a few weeks before planting. Commercial growers prefer old bulbs. 100 bulbs for 75c. 500 for \$3.25. 1000 bulbs for \$6.00.

**Ixia.** Our Cleveland variety, one of the best. Creamy white, with pink stripe on back of petals. 30c doz. Per 100, \$2.00.

**Ixias.** Assorted colors or white. 100 for

**Calla, Arum palaestinum.** Do not plant until Sept. 25c and 40c ea.

**Oxalis.** Winter growing types including **Bermuda Buttercup**, **Grand Duchess**, 3 colors, **Hirta** etc. Mixture only. No separate varieties sold at this price. 30c doz. \$2.00 per 100. Can be planted outside or in pots as soon as received. Start watering in August or later.

The following bulbs do better if planted very soon after digging. They should be planted long before our fall catalog is issued Aug. 15. Hence we list here.

**Amaryllis belladonna** major, 25c. Larger 35c and 50c. **A. belladonna** minor, 50c. **A. belladonna**, minor, var. "Ethel," dark rose pink variety, \$2.50.

**Lycoris radiata**, 25c. **L. incarnata**, \$2.50. **L. Aurea**, \$2.50. **L. squamigera**, \$1.00. (Lycoris come from Japan. War caught us with short stocks. Some of these will probably not be listed in Fall catalog. Buy now.)

**Haemanthus coccineus.** Blood Lily. \$1.00 and \$1.50 ea.

**Hippeastrum advenum.** Blood red flowers in fall. 25c ea.
